

# MATERIAL SPECIFICATION

**TEXTAR**<sup>®</sup>

## Textar T020

### Main Vehicle Application

MAN

### Main Brake Manufacturer/Type

S-Cam

### Friction Material Release

OE lining material

### Features and benefits

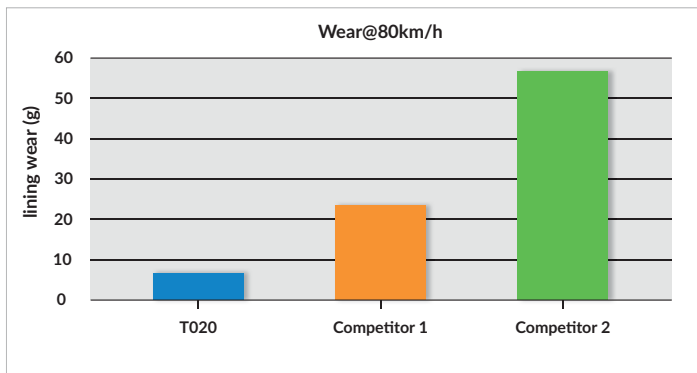

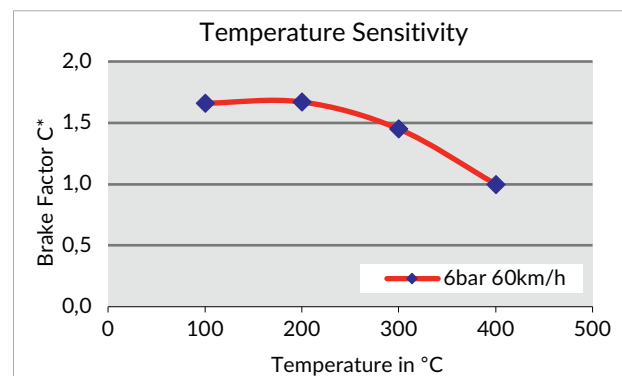

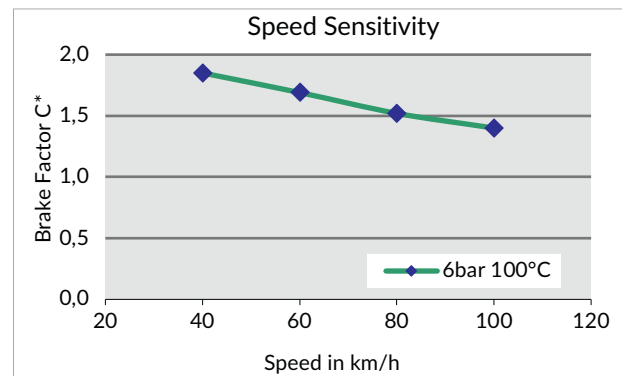

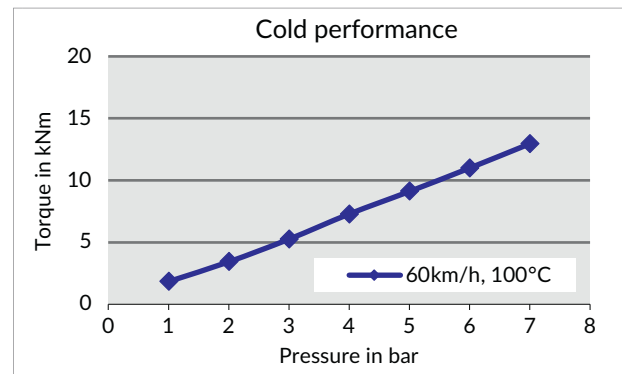

T020 is a material with good frictional stability, long-life, and excellent drum compatibility

### General Description

Textar T020 is a MAN OE lining material which finds its use in applications with S-cam brakes. This material was developed with medium to high friction values, exhibits an excellent wear rate and has an excellent compatibility to the drum. This premium material is also known for its good frictional stability.

### Friction Performance/Output

(tested on Mercedes/MAN S-Cam brake, 410x160 mm linings)
